

Orientile

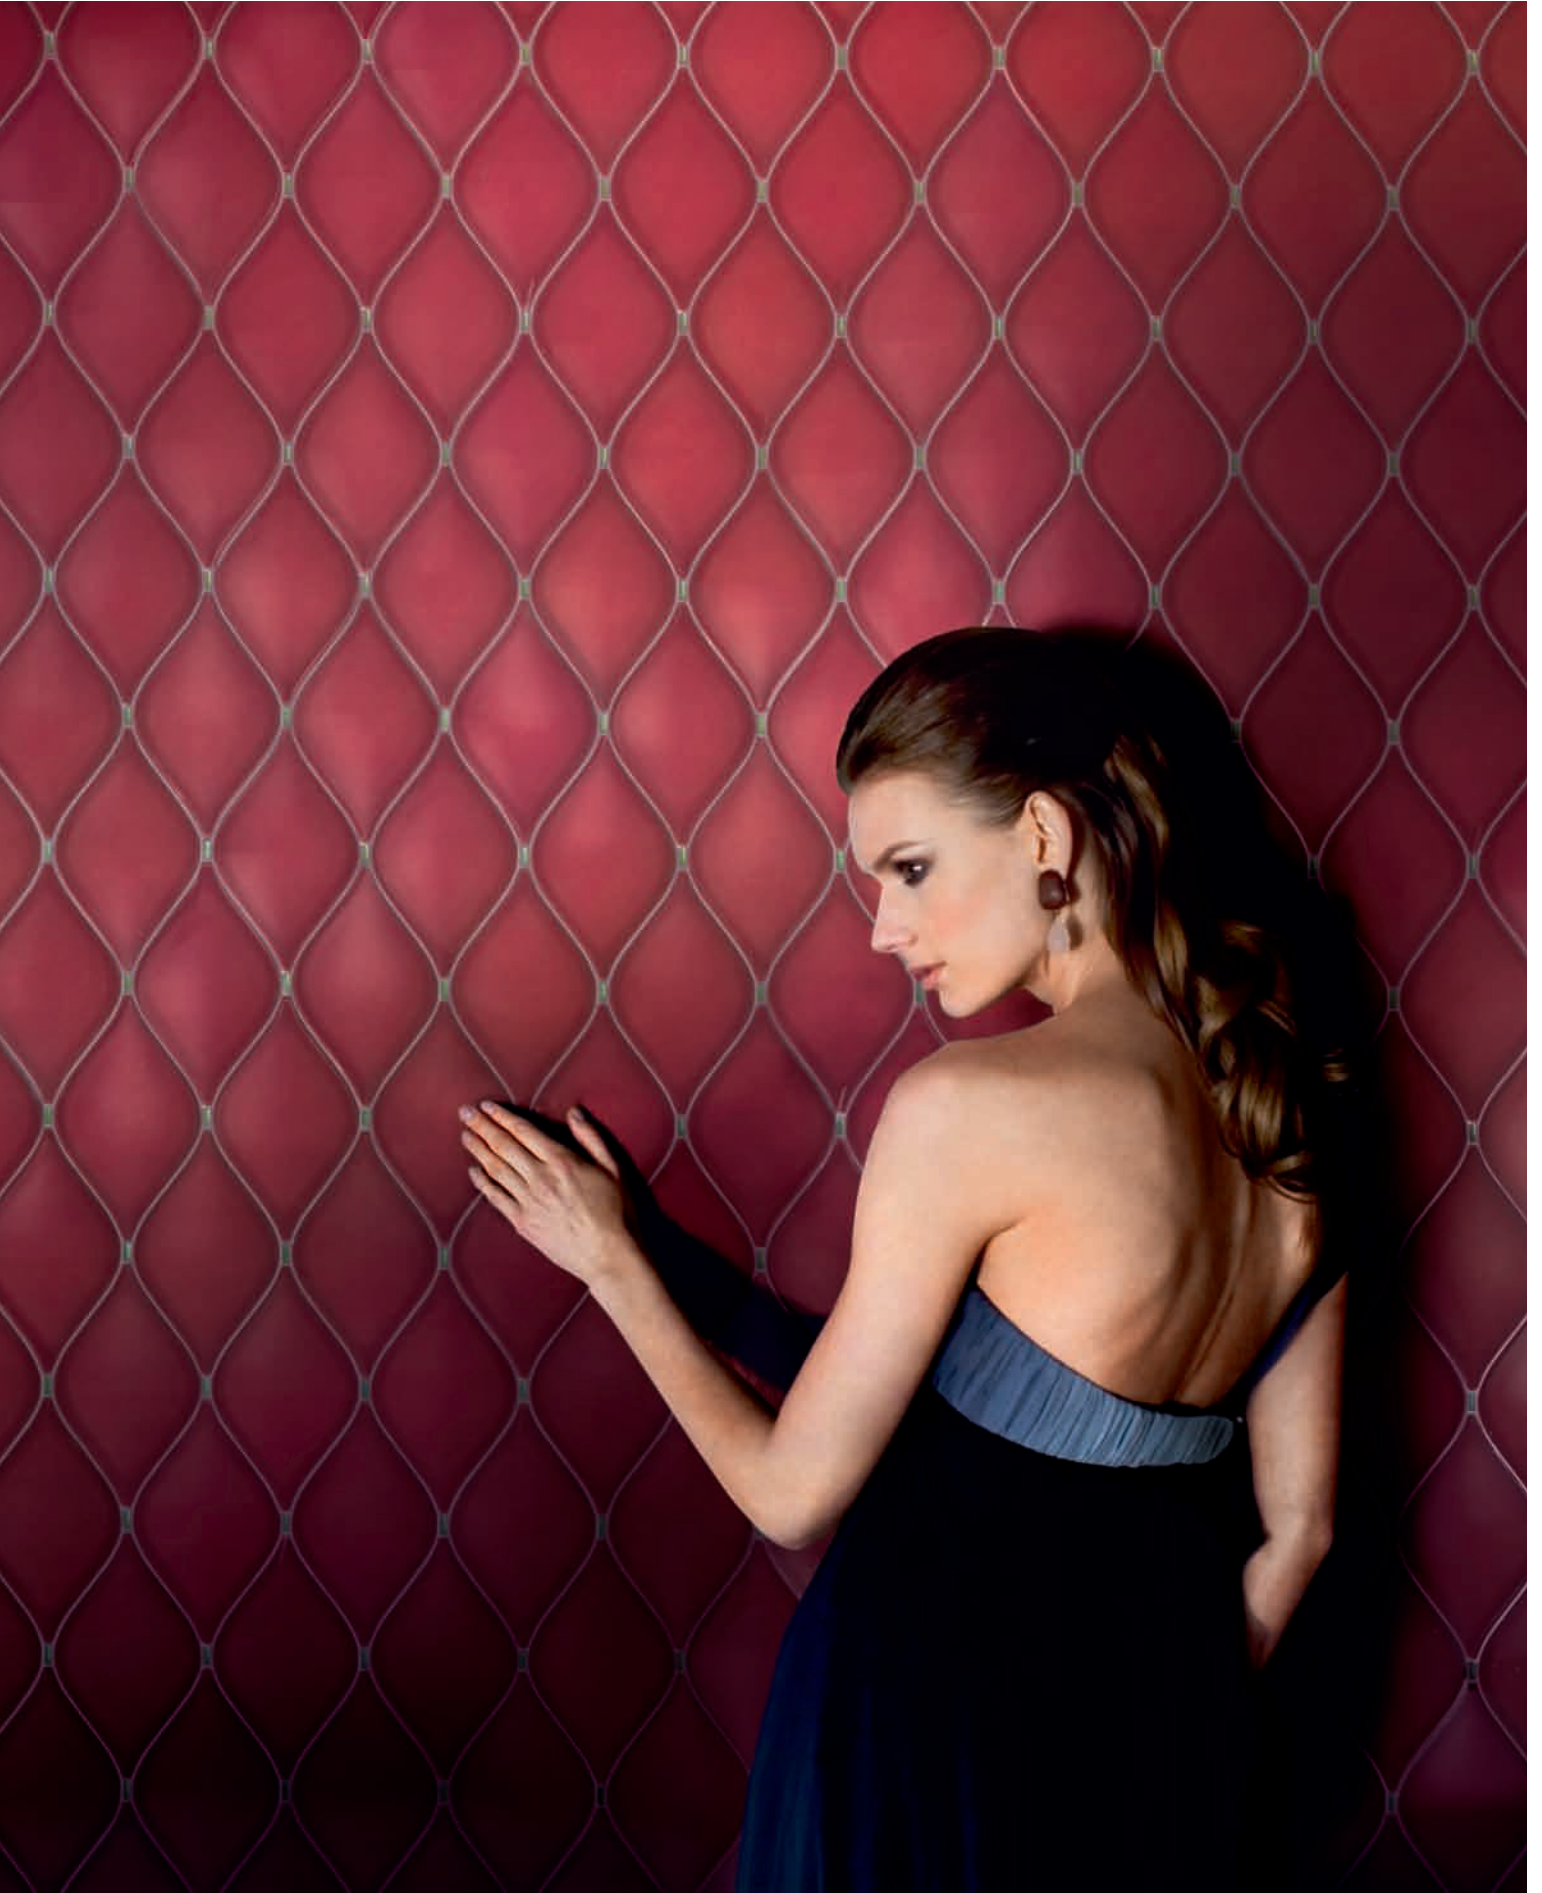

Osmanlı ve Selçuklu kültürlerinin zengin tarihsel dokusu.

Saray avlularında dolaşmış kaftanlar, cariyelerin göz nuru altın sırmalar, tarihe tanıklık etmiş geleneksel motifler, seramiklere dönüşüp modern mekanlara geçmişten izler taşıyor. Yepyeni formları ve özel döşeme yöntemleriyle Can Yalman tarafından tasarlanan Orientile serisi farklılığınızı yansıtıyor.

Rich and historical texture of the Ottoman and Seljuk Cultures.

From caftans wandering in the palace courtyards to the painstaking designs of concubines' gold threads, history-witnessing traditional patterns transform into ceramics, bringing traces of the past to modern places. With its brand new forms and special tiling methods, the Orientile series designed by Can Yalman reflects our difference.
